Bogdan Branzaniuc
JUNIOR FULL STACK SOFTWARE DEVELOPER

PERSONAL PROFILE

I am a 23-year-old Junior Software Developer who places a high priority on absorbing the best practices shared by seasoned tech professionals.

As a Junior Developer, my goal is to contribute to the tech industry by creating high-quality software solutions that deliver real value to end customers, while learning 1000 new things with each step of my journey.

I have a strong foundation in programming languages like JavaScript and Python with hands-on experience in powerful frameworks like Django and Flask. Additionally, I am well-versed in version control through Git, and I consistently adhere to Agile methodologies in my development practices.

I excel in problem-solving and collaborate effectively with teams using tools like Slack/GitHub

Eager to embark on my career in technology, and excited to contribute my skills, enthusiasm, and dedication to any project or team I join.

A personal motto that guides my work ethic:
"It is never a bad idea to leave things better than you found them"
